Hand & Machine Stretch

Top Sheets Pallet Bags

Builders Film Bundling Film

PH: (08) 9240 1945 E: sales@mormac.com.au

HDPE: High Density Polyethylene

LDPE: Low Density Polyethylene

Thickness Definition: μm = commonly known as micron which is equal to one thousandth of a millimetre.

Blown film: Excellent puncture resistance, great memory & load retention, slightly opaque & noisy to unwind.

Cast film: Excellent clarity, quiet unwind, poor memory, easy to stretch and economical.
